

# SEMI+ FLEXIBLE DUCT

## SEMI+

# YY FLEX

### Application

SEMI+ (Semirigid Flexible Duct) is a bendable flexible ducting in aluminium. The SEMI+ products are being used for the HVAC market as well as for various industrial purposes.

### Construction

Alu 1-layer: Spirally produced ducting of one layer of Aluminium Foil.

Duct Material	Aluminium
Thickness of Aluminium	0.10mm
Standard Length	6m
Compressed Length	2m
Diameter Range	50mm / 315mm
Temperature Range	-30 / +250
Maximum Air Velocity	25m / sec(4922ft/min)
Max. Positive Working Pressure	2000pa
Packing	Bulk Carton
